

Gather together and conspire with the new development of Chinese class

On the morning of October 16, Professor Constantin Oprean, former president of the Lucian Blaga University of Sibiu, and Wang Jiong the new president of the the Confucius Institute at Lucian Blaga University of Sibiu, accompanied by two new volunteers of Chinese teachers, traveled to Miercurea Ciuc. At the same time, Galbea Petru-Ioan, chief inspector of the province of Harghita, who paid great attention to the Chinese class, Glodeanu Cristinel Fanel, the deputy superintendent, Aurora, the European Project Superintendent, and the principals of eight local teaching sites also gathered in Ciuc city hall. At noon on the day in the city hall, everyone gathered to discuss the new development of Chinese education.

First of all, Professor Constantin gave a general guideline on how to continue and further improve the teaching of Chinese in the new academic year. General Director Galbea gave a detailed introduction to the overall development of the Chinese class in the province of Harghita, Secondly, president Wang made constructive suggestions on how to enhance the richness and interest of the Chinese class. On behalf of the Confucius Institute at Lucian Blaga University of Sibiu, she expressed her opinions on the development of Chinese teaching in Harghita province. In the end, we all agreed that it is necessary to regularly carry out activities with Chinese traditional culture while teaching in the classroom. The

meeting also discussed the accommodation of volunteers in order to satisfy the volunteer's life needs, while facilitating the implementation of teaching. After the meeting, President Wang and the teaching director confirmed the class time again. The principals and volunteers also left contact information, and the entire meeting was successfully concluded.

It is noteworthy that this year volunteers will no longer be fixed in only Ciuc accommodation, the eight teaching points are divided into two teaching circle, volunteers will alternately live between the two teaching circles, saving commuting time and creating more time with kids in different schools.

We believe in the joint efforts of everyone, the development of Chinese education will getting better and better!
